

## Appendix 16A: NRHP-Eligible Resources Affected by the Project

**Table 16A-1. NRHP-Eligible Historic Buildings Affected by the West Davis Corridor Alternatives**

Address	NRHP Eligibility Criterion	Nature of Impact	Section 106 Finding of Effect	Alternative(s) Having the Effect
?1016 N. 2000 W., Kaysville	Criterion A	Direct impact to primary historical building	<b>Adverse Effect</b>	<b>All alternatives (both with and without wetland avoidance options)</b>
776 S. 2200 W., Layton	Criterion A	Acquisition of 11.8 acres out of 37.1 acres at rear of adjoining agricultural fields; no contributing features would be affected	No Adverse Effect	A1, A2, B1, B2 (with wetland avoidance options)
		Acquisition of 12.0 acres out of 37.1 acres at rear of adjoining agricultural fields; no contributing features would be affected	No Adverse Effect	A1, A2, B1, B2
984 S. 2200 W., Layton	Criterion A	Direct impact to primary historical building	<b>Adverse Effect</b>	<b>A1, A2, B1, B2 with wetland avoidance options</b>
		Property avoided	No Effect	A1, A2, B1, B2
992 S. 2200 W., Layton	Criterion A	Direct impact to primary historical building	<b>Adverse Effect</b>	<b>All alternatives (both with and without wetland avoidance options)</b>
Joseph Hill Family Cabin, 2133 W. 1000 S., Layton	Criterion A	Direct impact to primary historical building.	<b>Adverse Effect</b>	<b>A1, A2, B1, B2 with wetland avoidance options</b>
		Strip take of 0.3 total acres of fields located in the southwest corner out of 3.3 acre; no contributing features would be affected.	No Adverse Effect	A1, A2, B1, B2
3901 W. 2700 S., Syracuse	Criterion A	Acquisition of 0.01 acres of agricultural fields located behind the residence and associated with the residence out of 3.53 acres; no contributing features would be affected	No Adverse Effect	A1, A2 (with or without wetland avoidance options)
		Property avoided	No Effect	B1, B2 (with or without wetland avoidance options)
3178 S. 3000 W., Syracuse	Criterion A	Acquisition of 19.1 acres out of 264 acres from physically separated agricultural fields associated with the residence; no contributing features would be affected	No Adverse Effect	A1, A2 (with or without wetland avoidance options)
		Property avoided	No Effect	B1, B2 (with or without wetland avoidance options)

**Table 16A-1. NRHP-Eligible Historic Buildings Affected by the West Davis Corridor Alternatives**

Address	NRHP Eligibility Criterion	Nature of Impact	Section 106 Finding of Effect	Alternative(s) Having the Effect
3807 W. 2700 S., Syracuse	Criterion A	Acquisition of 3.2 acres out of 36.6 acres from middle of agricultural fields behind residence and agricultural building complex; no contributing features would be affected	No Adverse Effect	A1, A2 (with or without wetland avoidance options)
		Property avoided	No Effect	B1, B2 (with or without wetland avoidance options)
1002–1054? S. 3000 W. and 1068 S. 3000 W., Syracuse	Criterion A	Direct impact to one primary historical building and contributing outbuildings on parcel	<b>Adverse Effect</b>	<b>B1, B2 (with or without wetland avoidance options)</b>
		Property avoided	No Effect	A1, A2 (with or without wetland avoidance options)
2622 W. 1700 S., Syracuse	Criterion A	Strip take of 0.03 acre along frontage out of 0.59 acre; no contributing features would be affected	No Adverse Effect	B1, B2 (with or without wetland avoidance options)
		Property avoided	No Effect	A1, A2 (with or without wetland avoidance options)
2664 W. 1700 S., Syracuse	Criterion A	Strip take of 0.08 total acre along frontage out of 0.38 acre; no contributing features would be affected	No Adverse Effect	B1, B2 (with or without wetland avoidance options)
		Property avoided	No Effect	A1, A2 (with or without wetland avoidance options)
2678 W. 1700 S., Syracuse	Criterion A	Strip take of 0.1 total acre along frontage out of 0.52 acre; no contributing features would be affected.	No Adverse Effect	B1, B2 (with or without wetland avoidance options)
		Property avoided	No Effect	A1, A2 (with or without wetland avoidance options)
1653 S. Bluff Road, Syracuse	Criterion A	Strip take of 0.01 total acre along frontage out of 0.54 acre. Adverse Effect since impact would be on the frontage of the property	<b>Adverse Effect</b>	<b>B1, B2 (with or without wetland avoidance options)</b>
		Property avoided	No Effect	A1, A2 (with or without wetland avoidance options)
4469 W. 300 N., West Point (1950 Minimal Traditional WWII-era Cottage)	Criterion A	Strip take of 0.08 total acre on northeast corner of parcel on 300 North out of 20 acres; no contributing features would be affected	No Adverse Effect	A2 (with or without wetland avoidance options)
		Property avoided	No Effect	A1, B1, B2 (with or without wetland avoidance options)

**Table 16A-1. NRHP-Eligible Historic Buildings Affected by the West Davis Corridor Alternatives**

Address	NRHP Eligibility Criterion	Nature of Impact	Section 106 Finding of Effect	Alternative(s) Having the Effect
4469 W. 300 N., West Point (1915 Cross-gabled cottage)	Criterion A	Strip take of 0.08 total acre on northeast corner of parcel on 300 North out of 20 acres; no contributing features would be affected	No Adverse Effect	A2 (with or without wetland avoidance options)
		Property avoided	No Effect	A1, B1, B2 (with or without wetland avoidance options)
4428 W. 800 N., West Point	Criterion A	Acquisition of 0.2 acre out of 3.91 acres; no contributing features would be affected	No Adverse Effect	B2 (with or without wetland avoidance options)
		Property avoided	No Effect	A1, A2, B1 (with or without wetland avoidance options)
1309 N. 4500 W., West Point	Criterion A	Strip take of 0.04 total acre along frontage out of 0.37 acre; no contributing features would be affected	No Adverse Effect	All alternatives (with or without wetland avoidance options)
4750 W. 2425 N., Hooper	Criterion A	Acquisition of 3.4 acres in corner of agricultural field out of 61.86 acres; no contributing features would be affected	No Adverse Effect	A2 (with or without wetland avoidance options)
		Property avoided	No Effect	A1, B1, B2 (with or without wetland avoidance options)
5721 S. 5500 W., Hooper	Criterion A	Acquisition of 2.23 acres of agricultural land across the street and behind another residence out of 17.12 acres; no contributing features would be affected	No Adverse Effect	A2 (with or without wetland avoidance options)
		Property avoided	No Effect	A1, B1, B2 (with or without wetland avoidance options)

**Table 16A-2. NRHP-Eligible Archaeological Sites and Linear Historic Sites Affected by the West Davis Corridor Alternatives**

Site Number / Name	NRHP Eligibility Criteria	Nature of Impact	Section 106 Finding of Effect	Alternative(s) Having the Effect
42Dv70 / Lithic Scatter	Criterion D	Fill for interchange ramps at Glovers Lane would be placed on top of site; entire site would be buried	Adverse Effect	A1, A2, B1, B2 (with or without wetland avoidance options)
42Dv86 / D&RGW Railroad	Criterion A	Rail line would be spanned by a bridge or culvert	No Adverse Effect	A1, A2, B1, B2 (with or without wetland avoidance options)
42Dv87 / UP Railroad	Criterion A	Rail line would be completely spanned by roadway and proposed Park Lane trail improvement No Adverse Effect due to potential for temporary impacts during construction.	No Adverse Effect	A1, A2, B1, B2 (with or without wetland avoidance options)
42Dv89 / Lake Shore Resort	Criteria A & D	Small section of historic railroad berm leading into the site would be demolished to accommodate ramp construction for the Glovers Lane interchange; the remainder of the rail line and the vast majority of the site would remain undisturbed; association of the resort proper with rail access would still exist through the remaining portion of the railroad berm extending into the site	No Adverse Effect	A1, A2, B1, B2 (with or without wetland avoidance options)
42Dv110 / Grace-Terminal Transmission Corridor	Criteria A & C	Minor shifting of transmission lines and moving/replacing a small number of noncontributing towers; linear continuity and site association would be maintained	No Adverse Effect	All alternatives (with or without wetland avoidance options)
42Dv158 & 42Wb425 / Hooper Canal	Criterion A	Minor culverting and realignment of about 575 feet of open canal at new crossing on Segment 13. Minor culverting at new crossings of already piped sections of Segments 1 and 2 and south of 300 North	No Adverse Effect	A2 (with or without wetland avoidance options)
		Minor culverting and realignment of about 500 feet of open canal at new crossing on Segment 13. Also crosses already piped section south of 300 North.	No Adverse Effect	B2 (with or without wetland avoidance options)
		Minor culverting at new crossings of already-piped sections south of 300 North and south of Antelope Drive	No Effect	A1 (with or without wetland avoidance options)
		One new crossing of already-piped section south of 300 North	No Effect	B1 (with or without wetland avoidance options)

D&RGW Railroad = Denver & Rio Grande Western Railroad; UP Railroad = Union Pacific Railroad
